

## **PRODUCT SPECIFICATIONS**

|                       |                                 |
|-----------------------|---------------------------------|
| Product Number:       | D1018                           |
| Product Name:         | 2, 5-Dichlorophenylboronic acid |
| Formula:              | $C_6H_5BCl_2O_2$                |
| Molecular Weight:     | 190.82                          |
| C.A.S.:               | 135145-90-30                    |
| Specifications:       |                                 |
| Assay (by Titration): | 97-103%                         |
| FTIR:                 | To match standard               |
| Physical Properties:  |                                 |
| Appearance:           | Off white powder                |
