

## **PRODUCT SPECIFICATIONS**

|                       |                            |
|-----------------------|----------------------------|
| Product Number:       | C1007                      |
| Product Name:         | 2-Chlorophenylboronic Acid |
| Formula:              | $C_6H_5BClO_2$             |
| Molecular Weight:     | 156.38                     |
| C.A.S.:               | 3900-89-8                  |
| Specifications:       |                            |
| Assay (by Titration): | 97-103%                    |
| FTIR:                 | To Match Standard          |
| Physical Properties:  |                            |
| Appearance:           | Off white powder           |
